

ENVIRO PET WASTE NETWORK

2022 WEBINARS

In 2022 the Enviro Pet Waste Network conducted and recorded several webinars to make information available to support efforts to help reduce dog poo going to landfill.

A short 4-minute video about the Enviro Pet Waste Network tops the list.

ABOUT THE ENVIRO PET WASTE NETWORK (EPWN)

A chat with EPWN Founder Rose Seemann. This 4-minute video provides information about the Enviro Pet Waste Network, its purpose, website and how to find more information to help divert pet waste from landfill.

DEEP DIVE INTO PICK-UP BAGS

Speaker - Dr Love-Ese Chile, Regenerative Waste Labs, Vancouver, British Columbia, Canada
The in and outs of bioplastics and what this means for single use plastics such as pick-up bags for dog poop.

https://youtu.be/k6_CodZ_6AU

ANEROBIC DIGESTION + WORMS = USEFUL DOGGIE COMPOST

Speaker: Ruslan Zaerko, BenFe Ltd., Moscow, Russia
Turning dog poop into organic fertilizer. A local Eastern European dog owner has turned his attention to managing his dog waste better by building his own biodigester to experiment with processing dog waste.

<https://youtu.be/jBVQfdKc0Hw>

DOABLE SYSTEM FOR MULTIPLE DOGS

Speaker: Kathy Doesken, founder of Rocky Mountain Soil Stewardship, Fort Collins, Colorado, USA
Exploring a system for recycling dog manure via vermicomposting in an outdoor space with access to water. It can be scaled up for kennels or municipal recreation areas.

ENVIRO PET WASTE NETWORK

2022 WEBINARS

More from the Enviro Pet Waste Network

CLEANER GREENER PETS – SOLUTIONS

Speaker - Emily Bryson (PhD Candidate), Central Queensland University, Australia

Australian researcher aiming to provide dog owners with evidence-based advice to effectively compost dog poop and compostable waste bags and where to use the compost safely.

<https://youtu.be/R6asY7W9-tQ>

ANAEROBIC DIGESTION VERSUS COMPOSTING

Speakers: Aimee Christy - Research Biologist, Pacific Shellfish Institute, Olympia, Washington, USA and Rose Seemann – Enviro Pet Waste Network, Aurora, Colorado, USA

Anerobic digestion versus composting, use of off-the-shelf biodigester systems and large waste-to-energy anaerobic digestion facilities that accept pet waste.

<https://youtu.be/uZx5jN0H3dg>

EARTH CUBES – IN-VESSEL COMPOSTING

Speaker – Van Calvez, Green Mountain Technologies, Brisbane Island Washington, USA

In-vessel composting systems geared for community sharing composting 1,000lbs/ month of dog waste (454 kgs).

<https://youtu.be/2C7kNamEfaE>

COUNCIL WORM FARM TRIAL IN DOG PARKS

Speaker – Patricia Chamberlain, Coordinator – Waste Avoidance & Resource Recovery, Bayside Council, NSW, Australia

An Aussie council is tackling dog waste onsite at a few local dog parks using worm farms to manage dog poo in public facilities.
